X Spring ___ Summer

Describe the internship assignment:

Internships with the Student Environmental Center participate and learn about the student sustainability programs on the UC Santa Cruz campus. The Student Environmental Centers' (SEC) mission is to organize student involvement at UC Santa Cruz, and to collaborate with the University to implement environmentally sound practices on campus. The SEC serves as a central space for existing student environmental organizations, and encourages the development of new projects. Interns can work on existing campaigns or support the organization in various ways. Waste Prevention, Students for Organic Solutions, Wind Power/Green Energy, Green Building and Coalition Building are a few examples of opportunities within the SEC. Web design and maintenance, as well as media outreach are

Prerequisites: Outline the skills and background information necessary to participate in this internship.

- Willingness to learn new skills and participate in consensus decision making.
- Attendance at regular meetings
