Internship Description

Beauregard Vineyards is offering interns a chance to work on one of the regions premier vineyards: Bald Mountain Vineyard which is located in Bonny Doon very close to UCSC. For winter projects, we are now pruning the grape vines. Interns will assist with this project and will learn the basics of pruning and grape vine disease maintenance. Projects will be: assistance with pruning, gopher management, owl box monitoring. We are also amidst a partial replant of the vineyard so interns will assist in removal of old vine trellising. There will be no work when it is raining. At Beauregard Vineyards, wine is made in the vineyard.

Prerequisites

This job requires that the interns are able bodied because this is a physical farming job.
