# of interns needed/Hours worked per intern:
- Fall
- Winter

Needed for quarters:
Options (choose one)
- Remove your listing by ____________  
- Or keep on file for one year

Description of the internship assignment:
The Campaign for Sensible Transportation is an all-volunteer group advocating for environmental justice in transportation. The current campaign is to educate the public about the benefits of public investment in transit and active transportation (bicycling & walking) rather than investing in widening Highway 1. Currently, Metro transit is planning deep cuts in service due to financial deficits.

In the next few months the County Regional Transportation Commission will be finalizing the priorities in a transportation sales tax measure for the November ballot. So the focus is to get public support for sustainable and socially equitable priorities in that ballot measure.

Interns will join group members in circulating a petition for sustainable transportation on campus and in the community, meeting with community leaders, setting up presentations for community groups, speaking to classes on campus and developing written materials for outreach to students.

Prerequisites:
- Interns will be reaching out to the public in person and by phone. So a willingness to overcome inhibitions about talking to strangers is important. This can be a valuable opportunity to develop one’s voice in speaking up for practical measures that increase social and environmental justice.

**YES to Sustainable Transportation!**

**NO to Highway Widening**
