The Monterey Bay National Marine Sanctuary is looking for one intern to assist with the Fisheries Education Program. The Fisheries Education program is composed of two parts: Fishermen in the Classroom and Voices of the Bay Fisheries Education Curriculum. There are two primary roles the intern could fill:

- **Assist with Fishermen in the Classroom presentations at schools. (5 hours per week)**
  Intern would be expected to meet the Fishermen presenter at the assigned school, provide a 10-minute introduction to the class, and ensure that vouches and teacher evaluations are completed. The Fishermen in the classroom program visits approximately one Santa Cruz county school per week (grades K-12).

- **Aid in the editing and transcribing of video recorded fishermen interviews. (10 hours per week)**
  As part of the Voices of the Bay education program, 15 fishermen interviews were video recorded from 2009-2012. These videos need to be edited, transcribed, successfully uploaded to the Voices from the Fisheries oral history database, and edited into a compilation video for use in classrooms.

**Prerequisites:**

Role 1 - Intern will need to be comfortable speaking in front of school groups, provide their own transportation to schools throughout Santa Cruz County.

Role 2 - Intern will need to be familiar with iMovie or equivalent software.
