# of interns 2-3 needed/Hours 9:40-4:20 Needed for quarters: 6/10-7/12/13 & 7/21-28

Options (choose one)
worked per intern: Fall Winter Remove your listing by
Spring Summer

Or keep on file for one year

Describe the internship assignment:

Interns help, facilitate and supervise. First part is with ages 7-14 on field trips to Santa Cruz area parks and beaches. Another option is 7/21-28 Yosemite backpack with ages 10-16.

This 18 year old nonprofit teaches 180 classes in real physics and chemistry every year at local schools. We use active learning, hands on activities, and our classes are often after school at 5-8 public and private schools every week. In the summer we open up our field trips to kids. They are at local parks and beaches from 10am-4pm.

These UCSC students don't need to know a lot of science, but it's nice if they do. I do the teaching and managing along with a variety of teen helpers, and would welcome UCSC student helpers, too. It is an easy and fun program. You will also be learning to teach kids Physics and Chemistry with a Master Teacher!

Prerequisites:

• Assist in supervising campers
• Facilitate in learning activities
• Set a positive example
• Connect with kids
