Fall Environmental Ed Internship
at the
Life Lab Garden Classroom
on the
UCSC Organic Farm

Come enjoy harvest season on the Farm, and get school credit.

Interns teach garden-based science and sustainable agriculture concepts to local school groups, preschool through 6th grade.

Interns receive training in:
Garden-based science education, working with children in an outdoor setting, organic gardening, environmental education, games, activities, and much more!

Mon., Tues., Thurs. or Fri.: Farm to Fork Field Trips for 1st grade & up 9:00-1:45
Wednesdays: Seeds of Wonder Preschool & Kindergarten Field Trips 8:30-1:45

Interns choose one day of the week to teach all quarter. 2 credits available through the Environmental Studies Dept., Community Studies Field Program or Independent Study.

For more information contact Amy at 459-4035 or amy@lifelab.org.

Training begins the first week of classes, on your chosen day.

The Garden Classroom is a collaboration between Life Lab & The Center for Agroecology and Sustainable Food Systems
