### **The internship assignment:**

Brief statement about the agency; role of the intern and specific objectives of the projects assigned to the intern; tasks to be performed.

CALPIRG Students has been working for over 40 years to amplify the power of student activism, and help students make real change, right now. Our chapters provide the training, professional support, and resources that students need to tackle climate change, protect public health, revitalize our democracy, feed the hungry, and more. We all want to live meaningful lives in a world that's greener and healthier, so we help students get organized, mobilized, and energized to make that vision a reality.

CALPIRG interns take on leadership on one or more of our campaigns and receive support and training from a team of experienced organizers and student leaders. Our internship program gives students the opportunity to take their education out of the classroom, do hands-on work, learn important skills, and make an impact.

### **Prerequisites:**

We are looking for interns who are organized, communicate well, and are passionate about making a difference. Any experience level is welcome and prior leadership or campaign experience may qualify you for an advanced position.
