

**UCSC Farm and Garden  
Center for Agroecology and Sustainable Food Systems (CASFS)**

**SUMMER 2019**

**CASFS is Offering  
5 & 2-unit internships  
APPLY NOW!**

CASFS is offering 5 & 2 unit, lower division farm and garden internships focused on field-scale and market garden-scale harvesting, tillage, planting, composting, cover cropping, and propagation.

- 5 unit applicants preferred, 2 unit applicants also accepted
- There are ~30 positions available across three different work sites
- Fieldwork schedule:
  - M/W/F 8:30-12 noon for 5 units, or two out of the three days for 2 units
- Dates for starting and stopping during summer are negotiable, with ~~back~~ consideration given for vacations and family trips, etc.
- At least 80% of internship will consist of outdoor fieldwork
- Internship includes some readings and discussions, to provide context ~~and~~ preparation for fieldwork
- Internship applicants need to be prepared and enthused to work outdoors in occasionally uncomfortable weather conditions. Given field conditions, students may want to change their attire, prior and/or post fieldwork. Please take this time into account when considering this internship.
- The farm is located at the base of campus, a 10-minute walk from the nearest bus station (Village/Lower Quarry).

If you are interested in this internship opportunity, please contact **Damian Parr** [dmparr@ucsc.edu](mailto:dmparr@ucsc.edu). Internships will remain available until positions are filled. Spaces fill quickly.
