Quarters Needed: Fall, Winter, Spring

of Interns/Hours: 2 interns, 60 hours

Prerequisites:

Applicants must demonstrate a positive attitude, a willingness to learn and attention to detail. Applicants must have reliable transportation to transport outreach materials and equipment (table, easel, etc) to and from events. Knowledge and sensitivity of socially vulnerable populations are desirable, as well as past experience in community outreach.

Description of Internship:

The City of Santa Cruz's award winning Climate Action Program is part of the City Manager's office. Since its

inception in 2007, the program has been tasked with the implementation of the City's Climate Action Plan and meeting its 12 climate action milestones. The Climate Action Program has recently completed its 2017 update to the City's Climate Adaptation plan and will be working in the community throughout the years to conduct outreach in a variety of formats.

The Climate Action Program is seeking two Climate Action interns for fall quarter, which could possible extend through the winter and spring, to support the climate action and adaptation plans' implementation
