Interns Needed: 1 for Fall & Winter quarter, 1 for Spring and Summer for 12 hours per week.

Global Student Embassy (GSE) Internship

GSE is a grassroots nonprofit that is focused on equipping students with intercultural leadership skills in order to tackle pressing global issues. GSE is currently looking for one intern for the fall and winter quarters, and one intern for the spring and summer quarters. The focus of the internship will be created through collaboration of the intern and the community educator they will be directly working with. The internship will be focused on organic gardening, local plants, and hydroponics (or willing to learn). Must live locally year-round, as the position will include work over breaks from school. 12 to 15 hour per week commitment, mostly in the time range from 2:00 to 5:00pm Monday-Thursday, and some weekends.

Applications and interviews will be on a rolling basis; position to start Mid-September.

Please send resume and cover letter to: Tessa Janicke, Santa Cruz Community Educator
tjanicke@globalstudentembassy.org

Pre-requisites

- Experience with organic gardening
- Experience working with high schoolers
- Knowledge of local plants
- Experience or knowledge in hydroponics is a plus
