### Internship Description:

We will train you in all aspects related to broadcast and online audio reporting on local environmental issues.

You will report on issues affecting the natural environment around the Monterey Bay for "This Just In from Outdoors," KZSC's weekly environmental news report broadcasting every Friday evening since 2014.

We produce news and profiles of Monterey Bay environmentalists, scientists, natural wonders and natural hazards. We also produce audio nature walks! We cover scientific studies of our special natural surroundings, we also cover the food system and agriculture, local land use, and positive solutions to local environmental issues.

### Prerequisites:

- No experience necessary.
- We will train you in research and reporting, writing for the radio, field recording techniques, interviewing, audio editing, podcasting, website and newsletter posting and social media strategy
