Madison Wines is a small winery based in the Santa Cruz Mountains. We farm a variety of vineyards around the county using both organic and biodynamic practices.

We vinify our wines using only natural methods.

We are looking for 1-2 interns per quarter to help farm vineyards, make and bottle wine, manage business operations and create social media content. We are looking for someone with good communication skills with a desire to work hard and learn about wine and farming. Interns must be 21+ years of age, able to lift 50 lbs, operate a camera and use Microsoft Excel.
