Youth Educator and Advocate: This Oceanseed Project internship is an influential leadership and learning position. This Oceanseed Project internship is a field and classroom based teaching/mentorship position that allows you to share your passion for our world in a manner that inspires and empowers local children participating in our programs and at the same time teaches and develops in you, the most important skills for living a rich satisfying life. The Oceanseed Project internship additionally provides direct experience and education in social entrepreneurship as a whole including government regulations, finance, fundraising, marketing, programs development and operations.

Focus Areas:

1. Teach, lead and mentor 3rd grade children in a weekly, experiential, Earth & environmental science program at a designated partner school in Santa Cruz County and on related field outings
 2. Develop and enhance related curriculum
- As well as learn and participate in:
1. Grant writing and research
 2. Program development and budgeting
 3. Marketing, fund development and community engagement

Community Advocate: This is a powerful operational learning position focused on program support, grants and marketing.

Requirements: All Oceanseed internship team members are provided strategic guidance and supervision coupled with encouragement and opportunity to be fully self-expressed. This significant investment requires an internship commitment for the full academic year, fall, winter and spring terms with credit being available for one more quarters. The ideal Oceanseed Project internship candidate has their own transportation, the utmost regard for our environment, youth, justice and global well-being, is an authentic, engaging communicator with great integrity and attention to detail.

OCEANSEED PROJECT is an environmental, science-based nonprofit that provides access, insight, inspiration and developmental empowerment to local youth, creating our most verdant and just world.
