- Accepting 1-2 interns per quarter

## Internship assignment:

Quarterly internship at the NOAA Fisheries laboratory in Santa Cruz. Interns will assist researchers in early life history studies of rockfishes. Duties may include:

- \*Digital measurement of fish embryos and larvae
- \*Digitizing and organizing video of larval fish swimming trials
- \*Microscope work – quantifying larval fish samples
- \*Aquarium husbandry – feeding, cleaning and monitoring adult and larval fish tanks
- \*Data entry

## Prerequisites:

- \*Attention to detail, microscope experience
